

**T&L** TEACHING & LEARNING ALLIANCE

# ELEMENTARY SCHOOL PARTNERSHIPS

We work together with district & building leadership, literacy coaches and classroom teachers to design and implement effective professional development. Our workshops and coaching are evidence-based while remaining customizable to the needs of the partnership.

## Foundational Skills

*Strong readers need a strong foundation.* We can support you with your phonemic awareness, phonics, structural analysis, morphology, vocabulary and spelling through workshops and coaching. We also have our own preK-3 program that is research-based, sequential, multi-sensory and fun!

## Reading Comprehension

*Reading is meaning-making.* We help you develop instructional routines that cultivate motivated skillful readers. Our workshops and coaching topics include interactive read aloud with accountable talk, targeted small group instruction designed around student goals, joyful and effective whole class instruction, and strategies for creating robust and engaging text sets to support knowledge building and vocabulary.

## Writing Curriculum & Instruction

*Writing instruction is essential and often overlooked.* Our workshops and coaching elevate both the teacher as writer and the student as writer. We use looking at student work protocols to help us determine goals for teaching and learning. This process helps to strengthen not only the curriculum, assessment and instruction, but also the JOY in the classroom. We can support you with curriculum development, interactive writing, grammar and more.

## Capacity & Sustainability

*Thriving schools embrace a culture of ongoing learning.* We work together with leaders in the classroom, reading specialists, coaches and administrators to develop and implement look-fors peer inter-visitations and learning walks that continue the momentum once our workshops and coaching are completed.
